

WHAT WE DO

Capabilities

CNC machining

Sheet metal

Plastic part production

Additive manufacturing

Vacuum casting

Fabrication

Contract assembly

Welding & metal joining

WHAT WE DO

Solutions

Biotech instrument development

Commercial product development

Custom automation development

Design-to-manufacture

Medical device development

New product development

New product introduction (NPI)

Software development

Supply chain management

Turnkey contract manufacturing

th
chpad

WHAT WE DO

Markets we support

Aerospace, defense & communications

Automotive, transportation & mobility

Consumer & lifestyle

Healthcare & life sciences

Industrial & capital equipment

Technology & infrastructure

WHAT WE DO

Reverse engineering

Mechanical engineering

Prototyping

Supply chain management

CAD drafting

Manufacturing documentation

More of what we do

**Complementary
capabilities**
